PRIVATE BANKS WITH B.O.F.N.D. FUNDS DECREASE

Monthly Statement of Bank Shows Rapid Lessening of Redeposits

SHOW REGISTERED CHECKS

Bank Lists Amount as \$139,705 on April 15 in Public Statement

The number of banks in the state with which the Bank of North Dakota does business through redereposits is being rapidly reduced, according to a comparison of previous statements with the statements as of April 15, being sent out from the bank today.

On February 15 the Bank of North Dakota had redereposits in 785 banks, according to its statement. On March 15 this number was reduced to 641 and on April 15 this number was 573.

A decrease in the amount of redereposits in these banks is shown. On March 15 the redereposits were \$4,038,439.75 while on April 15 they had shrunk to \$3,474,055.29. The loans to banks decreased from \$2,222,865.05 on March 15 to \$2,222,556.22 on April 15. Loans to public institutions and departments were raised from \$1,135,600 on March 15 to an even \$1,200,000 on April 15.

Registered Checks The bank had registered \$139,705 in checks on April 15 outstanding, according to the statement, which follows:

Resources	
Bonds, United States, State and County	\$1,051,938.75
Loans to Banks	2,222,856.22
Loans on Warehouse Receipts	70,001.68
Loans to Public Institutions and Departments	1,210,000.00
Loans on Real Estate	2,870,194.71
Interest Earned (net) and Uncollected	223,696.58
Furniture and Fixtures	52,340.40
Due from 573 Depository Banks in North Dakota (Redeposit)	3,471,055.29
Due from Correspondent Banks outside of North Dakota	320,656.54
Cash Items due from Banks in the State	240,321.15
Cash Items due from the State and Public Corporations	155,278.62
Cash on Hand and Cash Items	97,141.84
Total Resources	\$12,885,385.19
Liabilities	
Capital	\$2,000,000.00
Surplus	40,000.00
Reserve to Repay Legislative Appropriation	24,108.87
Reserve for Depreciation on Furniture and Fixtures	11,868.46
Net Profits 1920	121,883.17
Net Profits, 1921	8,534.17
Appraisals Fees	4,774.24
Individual Deposits	247,037.72
Cashier's Checks	243,904.89
Public Deposits, Sinking Funds	2,935,709.61
Public Deposits, General and Other Funds State Treasurers	3,658,072.3
Public Deposits, General and Other Funds, County, City, Township and School Treasurers	2,760,129.54
Due to Depository Banks (Reserve)	514,326.61
Collection Items	35,059.78
Registered Checks	139,705.18
Bills Payable	None
Total Liabilities	\$12,885,385.18

The total footings of all the banks listed less than last month amounting to \$12,885,385.18.

Profits for 1921 are listed as \$8,534.17. Individual deposits show a decrease of about \$10,000 over last month, the amount for April 15 being \$247,037.72.

CASSELTON MAN IS NAMED HEAD OF ASSOCIATION

Jamestown, N. D., April 23—Officers of the Southwestern district of the state teachers association elected at the closing business meeting of the first annual session.

President—Supt. H. H. Kirk, Casselton.

Vice presidents—Harriet Perry, Jamestown; Elsie Reed, LuMoore.

Secretary—Blanche Stevens, Dickinson.

Treasurer—Edna Rohrige, Valley City.

According to an amendment to the by-laws, the place of next annual meeting is left to the executive committee of five officers.

RAIN PREDICTED FOR NEXT WEEK

Washington, April 23—Weather predictions for the week beginning Monday, Upper Mississippi and lower Missouri valleys.

Temperature near or below normal. Rains at beginning of week and again Thursday or Friday.

RE-APPOINT CITY OFFICIALS.

Dickinson, N. D., April 23—No changes have been made in the allotment of offices by the members of the city commission. A. D. Heaton was re-elected vice president and the city officials re-appointed.

North Carolina had at least 10 capitals before the establishment of Raleigh as permanent capital.

ONE FARM BODY IS PLANNED BY NEB. FARMERS

Omaha, Neb., April 23—Representatives of Nebraska farm organizations last night decided to form one union May 6 to work for mutual cooperation. A committee to perfect the plan will meet on that date. One reason assigned for the move was because "multiplicity of farmers' organizations has reached point where there is danger of disorganization through too much organization."

LAST WHISKEY RUNNER LEAVES COUNTY JAIL

Released on Bond Given For Appearance at Next Term of Court

The last of four alleged whiskey runners captured in Burleigh county by state agents and county officers has left the county jail. He is Carl R. Klein. He was released on bond by the notification of Justice Cusselman to the sheriff omitting the amount of the bond. In the cases of the other three bonds were first fixed at \$1,500 and then they were released on cash bonds of \$1,000.

Two of the men halted from Quidah and two from Sioux City, Ia. They are supposed to return to answer charges in court at the next term.

W. F. Nichols, arrested on an assault charge, has been released by Judge Nueesse under \$5,000 bond.

D. H. Stahr, arrested yesterday on a charge of beating a hotel bill, had not furnished bond this morning.

Geo. F. Baker, arrested on a forgery charge, is expected by officers to enter a plea of guilty in court soon.

LEMKE ASSERTS STATE'S BONDS WILL BE SOLD

Attorney-General Wires From East Regarding Efforts in Work

A declaration that the \$2,000,000 state bonds being offered throughout the country by the state of North Dakota will be sold is made by Attorney General William Lemke, in a message received from him in Washington.

Lemke declared \$200,000 worth of bonds would be sold by May 1. He said Washington will take \$100,000, Cleveland, Detroit and Cincinnati the same. Toledo, Fort Wayne and Indianapolis also are in the line of the campaign. The bonds are being sold chiefly to "liberal" in those cities, labor unions and to private subscribers.

ROMANCER OF RAILROADS

O. P. Byers, one-man railroad builder, a man of the Wichita & Northwestern, one of his roads and picture of one of the gasoline passenger cars he operates over it.

GAS CARS SOLVE RAIL PROBLEM

By Newspaper Enterprise.

Hutchinson, Kan., April 23—O. P. Byers finds romance in railroads. After having aided in constructing two roads that are now transcontinental lines across the prairies and after having built three railroads himself into undeveloped sections Byers says:

"When we are on the front, pushing the rails out 30 feet at a time when the engines moves up—Often I have looked at it in a sort of awe and said to myself 'There stands a locomotive where one never stood before.'

"This conquering of the wild, this extending of railroads into territory where railroads are wholly negle to me the greatest of romances."

Greatest of All

There have been other one-man railroad builders. But Byers is the greatest of them all.

Back in 1878 when the government was trying to connect up with railroads its chain of forts in the Indian country, Byers helped construct the first railroad built in Kansas the Kansas Pacific, now the Union Pacific. Later he aided in the construction of many lines of the Southern Pacific.

Looking about him Byers found that lack of transportation was regarding the development of many sections of Kansas. Farmers often were compelled to haul their crops by wagon a hundred miles or more to the nearest railroad.

They need railroads, said Byers, and he set about to make railroads possible to connect three lines.

The Anthony & Northern Railroad is a product of Byers alone. The line 100 miles in length, runs from Pratt, Kan., through Laramie to LaCross with a branch line to Kiowa, connects in three transcontinental lines, the Missouri Pacific, the Santa Fe and the Rock Island.

Outside of the aid furnished by towns in voting bonds in the sale of terminal bonds in towns and by the sale of lots in new towns along the right of way, Byers has financed the road himself. He personally supervised all construction work on it.

He is now building the Kansas & Oklahoma Railroad from Foreign Oklahoma to a connection in Colorado by the same method. It will connect many isolated counties in three states.

Farmers in these counties last summer had to haul their grain 100 wagon 50 miles to a railroad, said Byers. That's why I'm building the new line.

I see Gasoline car.

Byers thinks he has solved the problem of maintaining gas cars over long distances in open country. He uses the gasoline motor in the car. He builds them in his own shops at Pratt, Kan., not only for his own railroad, but for other railroads.

These cars cost 22 passengers can be operated for 15 cents a mile. A trailer is attached for hauling baggage.

The gasoline car is the cut-off of "The Ghost," the first passenger car that Byers operated on the A. P. F. The Ghost is made by putting two gasoline engines on top of the car to run it and just the side-long wooden benches for passengers.

Rev. Mr. Walker Befter, Dickison, N. D., April 23, Rev. H. G. Walker, Jr., has been stricken with a severe attack of influenza. He is expected to recover.

GERMANS SEND U. S. NEW NOTE ON INDEMNITY

American Reply to Reparations Suggestions is Made

ALLIED DEMAND EVADED

Germans Reply to Request For Transfer of Reichsbank Gold With New Plan

By the England, April 23.—(The Associated Press)—The British prime minister, Mr. Lloyd George, and Premier Brind of France engaged in a discussion of French proposals for the occupation of the Ruhr basin in the event of Germany's failure to fulfill her reparations obligations and Germany's note on reparations, said an official.

Paris, April 23.—Germany's new reparation proposals will be distributed to Washington this evening according to a Berlin dispatch (UPI) afternoon. The cabinet met during the afternoon, says the message, to make a final draft of Germany's answer to the American note and it is understood the proposals will be embodied in this communication to be transmitted by tonight.

London, April 23.—Germany has sent to Washington a reply to the American note rejecting the role of arbitrator for the reparations question, says a Central News Dispatch from Berlin. Its contents will not be made known until later in the day.

CABINET FACES CRISIS.

Berlin, April 23.—A cabinet crisis appears imminent here as a result of the discontent aroused by the government's failure to consult the Reichstag before asking President Harding to mediate between Germany and the allies relative to reparations. The position of Dr. Walter Simons, foreign minister, is particularly impeached.

EVADES DEMAND.

Paris, April 23.—(By the Associated Press)—Germany, instead of neither agreeing nor refusing to transfer the gold reserve of the Reichsbank to occupied

HAYWOOD SAID TO HAVE TAKEN SOVIET BUREAU

To Head Propaganda Section
of Bolshevik Government

Chicago, April 23.—Federal officials today said they had received information that "Big Bill" Haywood, J. W. W. chief, who is believed to be in Russia, had gone to that country as head of the propaganda bureau of the Soviet government.

Haywood's time limit for reporting at the Leavenworth, Kan., penitentiary where he was scheduled to serve 20 years for obstruction of war activities, expires Monday.

SET LIMITS ON BEER AND WINE

Washington, April 23.—An arbitrary limit of four and seven-eights gallons of beer and three gallons of wine as the maximum a physician may prescribe at any one time has been set in new prohibition regulations which has the approval of David H. Blair, the new commissioner of Internal Revenue.

OPENING FOR U. S. MILITARY ACADEMY GIVEN

The Adjutant General of the War Department has notified Senator E. F. Ladd that North Dakota is entitled to the appointment of a candidate at large for West Point, who must report for examination at that place not later than July 1, 1921.

The young man must be not under 17 nor over 22 years of age at the

date of admission and not less than 5 feet 4 inches in height. The candidate must of course be a graduate of a recognized high school, of good standing, and in perfect physical condition in order to secure admission.

Those who desire to apply may address Senator E. F. Ladd, Washington, D. C.

WANTS NEW DEPOT.

Bottineau, N. D., April 23.—Bottineau citizens will petition the state railroad commission for a new depot.

BUICK CARS

These two telegrams, one from the far East, the other from the far West, are typical of the many telegrams which are being received from every section of the country asking for immediate shipment of Buick cars and for an increase in dealers' allotments.

They prove in a most conclusive manner the demand for Buick cars—a demand which is

particularly gratifying now when motor car values are being scrutinized as never before and when final sales are consummated upon the basis of greater relative values and actual demonstrated worth.

Active buying, too, is stimulated by a realization of the periodical shortage of Buick cars and the desire to insure Spring deliveries by the immediate placing of orders.

RECEIVED AT

New York N. Y., Feb. 24th, 1921.

Buick Motor Co., Flint, Mich.

We are sending complete list of orders for shipment to dealers and to New York covering 736 automobiles. Of these orders 625 are direct shipments to dealers and 111 are absolutely required in New York to take care of orders in our files, delivery of which is already pressing us. Please don't get the idea that these 111 cars for New York will add to our stock here. We will have shortage of cars on all models within the next three weeks. Our March requirements will take all the cars that we are ordering from you now and wipe out our warehouse stock as well. You still owe us 51 models on our February schedule for direct shipment to New York. These are required to take care of orders in addition to March schedule. We estimate our requirements for April will be upwards of 1000 cars.

HOLD FUNERAL OF FLANNAGAN CUSTER SCOUT

Ex-service Men Attend Funeral
of Civil and Indian War
Veteran Body

HAD BEEN SICK LONG

Came to Old Fort Lincoln With
Indian Fighter Forty
Years Ago

With the ex-service men attending
in a body, funeral services were held
this morning for Sergeant James
Flannagan, Civil War veteran, and
one of Custer's scouts, at St. Joseph's
church.

Mr. Flannagan is the last of white
scouts of the famous Seventh cavalry
of Custer's. He was one of the best
known characters on the Missouri
Slope.

Sick for Several Years

He was 84 years old and had been
sick for several years, the last three
months being confined to his home
with general debility.

Sergeant Flannagan was born in
Greenfield, Massachusetts, in 1836.
Little is known of his early life.
In the mid-fifties, while he was yet
in his teens he joined the mad rush
to the gold fields of California, but
drifted back to Ohio prior to the
Civil War. He enlisted as a trooper
and served through the Civil War
in Company E of the Eleventh regi-
ment of the Ohio Cavalry.

Leaving the army for a few years
after the Civil War, he again enlisted
in the cavalry and came to Old Fort
Lincoln with the Custer command
over forty years ago. He was pro-
moted to the rank of Sergeant in M-

WARM WEATHER OF SPRING IS STILL MYSTERY

Reports Show That March Was
One of Warmest in History
of Country

BY ASSOCIATED PRESS.
Cause of underlying the unusually
warm weather of early spring this
year remain a mystery to Weather
Bureau officials. But reports show,
they say, that March was one of the
warmest in the history of the country,
breaking all known records for high
temperatures at some weather bureau
stations in the east.

One contributing reason for the high
March record, they stated was the suc-
cession of bright clear days, during
a month when blustery winds, clouds
and storms usually prevail. But what
caused this succession of bright clear

Troop and served throughout the Indian
troubles of the early days.

Luck With Him
At the time of the Custer expedition
west in search of the Sioux who
had refused to return to the reservation,
Flannagan was with Custer's
Seventh cavalry. Custer divided his
command into three sections.

"We luck was with me," said the
sergeant a few years ago in recounting
his experience. Shortly after the
battalions had separated Flannagan
was sent over to Reno's command
with an order or message of some
kind, and remained with Reno, thus
escaping the massacre in the battle
of the Little Big Horn.

Moves to Mandan

Mustered out of service a couple of
years later, the sergeant moved into
the village of Mandan and has since
made his home here. His wife died
several years ago. One daughter, Miss
Minnie Flannagan, and one son, En-
gineer William Flannagan, survive.

Sergeant Flannagan was a member
of the command under General Nelson
B. Miles, who in 1877 chased Chief
Joseph and his band of hostile Nez
Perces Indians through Oregon, Wyoming,
North Dakota, Montana and Idaho.
This was after the Custer
massacre, when the Nez Perces re-
fused to be transferred from their
original home in Oregon to a new
reservation. The band was captured
near the Canadian boundary in Mon-
tana. The chase after the band of
Chief Joseph lasted in summer of

1877.

Meet Today
Hope No. 1 of the Lutheran Ladies
Aid are meeting this afternoon.

Return From Cities
Mr. and Mrs. G. A. Riden returned
today from a visit to the Twin Cities.

Back From Wyoming
J. H. Rosen returned yesterday from
Wyoming and Montana, where he has
been on a business trip.

Arrives From Dubuque
Miss Gertrude Schwartz has arrived
from Dubuque to visit Mr. and Mrs.
Charles Wyman.

Home From School
Duwain Plant is in Mandan for a
few days to visit his parents, Dr. and
Mrs. Plant. He is attending the Da-
kota Business College.

days, the Climatological Division is
unable to determine.

One cause of usual cold March
weather is said to be the sharp differ-
ence frequently prevailing in baro-
metric pressure. This feature evi-
dently was missing this season, al-
though complete records had not as
yet been compiled. Cold weather often
resulted, it was said, from a high baro-
metric pressure in the colder regions
of the north which created an air
"hill" down which cold air poured, like
water running downhill, upon the
United States.

During the cold winter of 1917-18, it
was pointed out, air pressures were
extremely high in Alaska, building up
a "hill" from which slick icy winds
from the snow fields, bringing one of
America's coldest winters.

Vegetation this March advanced far
beyond its usual growth and through-
out the fruit regions of the middle
west and southeast a short freeze nipped
many buds, causing what was
thought at first to be a disastrous dam-
age of far-reaching proportions. Lat-
er inspection of trees, however, it
was reported, showed that the frost
had not damaged fruit to such an ap-
preciable extent.

Although January and February al-
so were warm throughout much of the
middle west and east, they were rec-
ord breakers in no sense of the word,
the weather bureau reporting many
warmer winters.

The Far West winter, as indicated
by San Francisco reports was not
unusual, December and February be-
ing slightly warmer, with January
colder than normal.

**LIFT BAN ON
PASSPORTS TO
HELP BUSINESS**

The Hague, April 23.—To encourage
tourist travel in Holland this summer
the Dutch government has removed
many of the passport restrictions
which American tourists met here a
year ago.

Vises are now granted which are
valid for six months, without neces-
sity of securing new ones for enter-
ing and leaving the country during
that period, and registration with the
police is no longer necessary for trav-
elers from America, unless they re-
main longer than one month.

Belgium has made similar arrangements,
eliminating as far as possible the
necessity for frequent trips to
consuls, etc., but because the United
States charges a fee of \$10 for vis-
iting the passport of a foreigner, Bel-
gium retaliates by making an equal
charge for Americans, although trav-
elers of other nationalities pay a
much smaller fee.

PRAISED THEM TO HIS FRIENDS

Backache is a symptom of weak
or disordered kidneys. Stiff and painful
joints, rheumatic aches, sore muscles,
puffiness under the eyes are others.
These symptoms indicate that the
kidneys and bladder need help
to do the work of filtering and cast-
ing out from the system poisons and
waste products that cause trouble.
Ben Richardson, Wingrove, W. Va.,
writes: "I will praise Foley Kidney
pills because they have helped me."

and tags. If you prefer selling, we always
pay the highest market price.

THE BISMARCK HIDE & FUR CO.

BISMARCK, N. D.

GOPHER SOLONS PASS LAWS FOR AID OF FARMERS

Present Session of Legislature
Declared to Have Done
Much.

HAVE RURAL CREDITS BILL

St. Paul, April 23.—The Min-
nesota legislature which has just
adjourned sine die has given more
consideration to farm legislation than
any previous session in the annals of
the state, L. E. Potter, president, Min-
nesota Farm Bureau Federation, said
today.

The necessity of farmer legislation
was brought to the attention of the
legislators through action of the Farm
Bureau, when that organization called
for a referendum on the passage of
certain bills Mr. Potter said. This ref-
erendum showed the legislators the
wants of farmers, he said, and resulted
in the passage of the rural credits
law; the co-operative marketing law;
the open market bill; the short selling
bill; the passage of a joint resolution
by the Minnesota house and senate on
Minnesota grain grades, he continued.

With the passage of these laws,
Minnesota farmers will be in a better
position to cope with their financial
difficulties through the better market-
ing facilities offered them, which will
in turn react on the ultimate con-
sumer, Mr. Potter declared.

The rural credits bill permits this
question to be placed before the voters
of the state to decide whether the con-
stitution should be so amended. It
would authorize the extending of the
credit of the state to the farmers. The
details of this law would necessarily
be prepared by the legislatures fol-
lowing the passage of the amendment.

A similar law is in effect in South
Dakota.

The co-operative law permits the
farmers co-operative organizations to
federate with similar organizations
and enterprises of other states.

Open Market Law.

The open market law, which is mod-
eled after the Nebraska law, declares
boards of trades or grain exchanges
to be public markets, and thereby sub-
ject to state regulation. It also pro-
vides that these boards of trades shall
admit to full membership any farmers
co-operative organizations.

The law on short selling is designed
to prevent buying and selling of
wheat which does not exist and to pro-
hibit legitimate hedging.

A concurrent resolution also was
adopted requiring the state boards of
grains appeals to establish "Minne-
sota Grades" of grain substantially
the grades which were effective immedi-
ately prior to the adoption of the fed-
eral standards.

Grain Grade Action.

Representatives of North Dakota,
South Dakota, Minnesota and Wiscon-
sin, Mr. Potter said, will be heard be-
fore the officers of the United States
Department of Agriculture on grain
grades. Mr. Potter will accompany a
joint delegation of the Minnesota
house and senate, which is expected
to appear before these officials.

Other laws which in some manner
affect the farmer were also passed by
the present legislature and which will
materially affect the tiller of the soil
in his economic problems, Mr. Potter
said. Among one of the more import-
ant of these measures is the bill re-
garding the Pittsburgh plus rates on
steel.

**MADAME MELBA
TO RESUME HER
CONCERT WORK**

Paris, April 23.—Madame Nellie
Melba, opera singer, is spending a
month here preparing for a trip to
Australia. Upon her recovery from
a severe illness at Monte Carlo, her
physicians ordered a long sea voyage.
Madame Melba will sail from Eng-
land early in June for the United

**SYMPTOMS
WOMEN DREAD**

**Mrs. Wilson's Letter Should
Be Read by All Women**

Clearfield, Pa.—"After my last child
was born last September I was unable
to do all of my own work. I had severe
pains in my left side every month and had
fever and sick dizzy spells and such pains
during my periods, which lasted two
weeks. I heard of Lydia E. Pinkham's
Vegetable Compound doing others
so much good and thought I would give
it a trial. I have been very glad that I
did, for now I feel much stronger and do
all of my work. I tell my friends when
they ask me what helped me, and they
think it must be a grand medicine. And
it is. You can use this letter for a tes-
timonial if you wish."—Mrs. HARRY A.
WILSON, R. F. D. 5, Clearfield, Pa.

The experience and testimony of such
women as Mrs. Wilson prove beyond a
doubt that Lydia E. Pinkham's Vegetable
Compound will correct such trou-
bles by removing the cause and restor-
ing the system to a healthy normal con-
dition. When such symptoms develop
as backaches, bearing-down pains, dis-
placements, nervousness, and "the blues"
a woman cannot act too promptly
in trying Lydia E. Pinkham's Vegetable
Compound if she values her future com-
fort and happiness.

"NAPOLEON" GOES AUTOING—"Napoleon," famous monkey
film star, rides in his own automobile. He is shown here riding
with Peggy Doyle. "Nap" always dresses in up-to-the-minute
clothes and he is very fond of his cigarette.

States, where she may sing, and then
will go to Australia for a stay of six
months.

In spite of her illness, Madame Mel-
ba sang at the Monte Carlo opera.

The American navy is said to con-
sist of the best fed body of men in the
world.

The World's Verdict on Harding's Message

Disappointment in Berlin and cordial approval in London and Paris are
among the significant foreign reactions to the President's first message to
Congress. At home a majority of the papers applaud his program, yet a few
sharply dissentient voices are heard.

The leading article in THE LITERARY DIGEST for this week, April 23d, quotes a large variety of opinions from the press of the country on this ques-
tion. The New York World regards the peace plan outlined by Mr. Harding
as "a miserable makeshift that no President would ever adopt of

HEALTH GAIN AMONG KIDDIES IS REPORTED

School Nurse Details Increasing Bodily Cleanliness Among Children

ORGANIZATIONS HELPING

Women's Council Providing Means to Bring 50 Children Up to Proper Weight

The Modern Health Crusade among children of the city is producing results, according to the report of Miss H. Hutchison, city school nurse.

Reports of Miss Hutchison for a period of three months detail a "gratifying increase in bodily cleanliness, tooth-brushing, neatness, elimination of conceit and tea from children's meals, and in correction of underweights."

"More than 50 children, all underweight, are being brought up to weight by the efforts of the Woman's council in its nutrition class," says the February report. "The same organization is putting into the schools milk for underweights. This milk is tested, and pasteurized and is taken through straws."

Several organizations and citizens have offered to provide medical assistance for needy children, it is stated. The detailed report for the month, March 17 to 22, is as follows:

Cases examined	434
Follow-up interviews	132
Weighted and measured to find out who need milk	348
Throats examined	26
Calls on families	28
Meetings attended	40
Telephone calls	61
Health badges distributed	119
Results	

Results: No. Cases

1. Diseased tonsils and adenoids removed

11

2. Throats put under doctors' care

6

3. Vision cared for

11

4. Eye diseases cared for

10

5. Teeth cared for

29

6. Ears cared for

2

7. Gout cured for

1

Of the underweights, 40 in the William Moore, alone have gained. Some are now up to normal. The fine nutrition class in the Masonic Temple is adding to its list each week. Because of the work of the Child Welfare divisions of the Woman's council and the loyal help of the school teachers, 337 are now drinking milk in school daily.

The Modern Health Crusade was presented to 325-400 were urged to go to the dental movies. Through them many parents attend in the evening.

The following were sent home from school and required to obtain doctors' certificates before returning:

10 cases contagious eyes.

1 case mumps.

1 case skin contagion.

2 cases coming from a home where chickenpox was

4 cases coming from a home which had not been fumigated after small-pox.

8 minor wounds dressed.

Total examined so far, 1,207.

The following statistics pertain to WH School defective cases:

Teeth, 41 percent; Vision, 24 percent; Tonsils, 32 percent; Underweight, 39 percent; Ears, 3 percent; Eczema, 4 percent; Incipient Gout, 4 percent.

METHODISTS TO HOLD INSTITUTE HERE MAY 2-3

Full Program For Sunday School Teachers and Others Has Been Arranged

ATTENDS DIST. ASSOCIATIONS The North Dakota State Teachers Association, Southwestern Division, was held in Jamestown, Thursday and Friday, with Superintendent G. W. Hanna, of Valley City, as chairman. Matters concerning high school, elementary, and rural schools were taken up. Notable among the rural school topics were: "Teaching Farm Accounts," by Professor Rex Willard of Fargo; "Rating Teachers," by President R. N. Black of Ellendale; "The County Unit of Organization," by Inspector Edward Erickson; and "Promotion of a Consolidated School," by Principal F. V. Scudder of Luverne.

State Superintendent Nelson took as her subject "A North Dakota Book." Miss Nelson discussed the value of reports and exhibited the book containing the complete story of the development of education in North Dakota, brought together through the reports of districts, counties and state.

CLUBS FOR COMING WEEK

The P. E. O. Sisterhood will meet at the home of Mrs. F. R. Smyth on Third Street on Monday evening, April 23.

The Business and Professional Women's club will go on a hike on Tuesday at 6:15 p. m., leaving the club room at that time. They will eat supper in the woods.

The Fortnightly club will meet in the Community room of the City Library on Wednesday afternoon.

The Mothers' Social club will meet either with Mrs. Frayne Baker or with Mrs. B. F. Tillotson, on Saturday afternoon.

MOVE TO MINNEWAUKAN R. N. Stevens and Mrs. Stevens have moved their household goods to Minnewaukan, where they will make their future home. Mr. Stevens having taken up his practice of law in Minnewaukan.

Mr. and Mrs. Stevens have many friends in Bismarck, where they have been pioneer residents, who regret their departure.

T. J. Galvin and Mrs. Galvin, bride and groom of the week, will reside in the house vacated by Mr. and Mrs. Stevens on Third street.

HIGH SCHOOL PARTY

The high school students enjoyed a dancing party in the gymnasium of the high school building on Friday evening. Chaperoning the party were Superintendent Martin and Mrs. Martin, Mr. and Mrs. Neff, and Mrs. W. L. Smith. The high school students are permitted to have one party a month and they are greatly enjoyed.

VISITING IN FARGO

Mrs. Henry King of West Thayer street is spending some weeks in Fargo visiting her parents, Mr. and Mrs. Albert Henning at 415 Thirteenth street north.

RETURNS TO VIRGINIA

Miss Bell Farley, who has been the house guest of Mrs. A. E. Brink on Avenue A, for some time, leaves tomorrow for her home in Virginia.

U. C. T. AUXILIARY MEETS

The Ladies' Auxiliary of the United Commercial Travelers will hold their regular meeting tonight at 7:30 sharp at the Elks Hall.

VALLEY CITY GUESTS

Miss Bess Work and Miss Mayme Brady of Valley City are the guests of Mrs. A. E. Brink for a few days.

Hemstitching, Mrs. N. W. Kelly, Little Block, Bismarck,

N. D.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

SOUTH SEA ROMANCE

Popular fancy has been ascribing a vast amount of romance to life on South Sea Islands. But Bassett Digby, a writer, brings back a different tale.

"There are often lovely shells along the water line," he says. "But also there are always dead cuts and fowls and fishes and snakes and casuway vegetables and rotten fruit and squalls and land birds. There is no game and charred fuel and refuse from fishing nets, and sodden ancient rags and decaying cocoanuts."

This stuff, he says, languidly follows the tide up and down, day after day, week after week.

The burning sun makes the beach unbearable. There is shade under the fringe of palms, but no grass, just earth—and insects.

However disillusioning this picture may be, it is rather convincing. No doubt, if one can but see it, there is just as much romance ten miles from home as 10,000.

SHOOTING FOXES

Farmers in Wales are gunning for foxes. Nothing startling in that—to an American.

But to the British mind, the shooting of a fox is sacrilege.

Foxes were created to be pursued by hounds followed by dashing ladies and gentlemen in gay raiment, mounted on the best of horses.

The only reason that foxes are being shot in Wales is that there are too many for the fox hunters. Foxes have been getting in each other's way when hunted with hounds.

May we be permitted a snicker at the British fox code?

American sports are cramp-full of inconsistencies. Boxing is outlawed in many states, yet the more dangerous wrestling thrives. Scientists inform us that we are exterminating many species of game. Horse-racing is forbidden in most states because it has been debauched by gamblers. The majority of our young men are mere spectators of athletic contests.

The snicker at the British fox hunting code might be risky.

TONGUE-TIED BUSINESS

South American papers are poking a lot of fun at American catalogs and salesmen getting the Spanish and Portuguese languages balled up. One jester in Buenos Aires calls us "the tongued exportes."

The trouble with foreign-language study in American schools has been that languages have been regarded primarily as "mental discipline" or as "credits" in the course of study, rather than as useful commodities of trade.

Students in other countries learn to think in foreign languages. In the United States the student of a foreign tongue generally is a parrot, with the primary object of getting a good mark in his studies rather than mastering the language so it will be of real use to him.

American consular agencies repeatedly point out our linguistic handicaps. We must have only one language at home, but we must also learn—and learn correctly—the languages of our possible customers abroad. Trade supremacy in the world's markets may go to the salesman who can best talk his potential customer's language.

POWER BY WIRELESS

Nikola Tesla, inventive genius and "dreamer," says man soon will transmit power by wireless. The airplane need carry no fuel, nor the "steamship," nor the locomotive. The mill will grind wheat by power generated 5,000 miles away. He says, in the American Magazine:

"Power can be, and at no distinct date, will be, transmitted without wires for all commercial uses, such as the lighting of homes and the driving of airplanes. In recent years I have devoted myself to the problem of the wireless transmission of power, and I have discovered the essential principles, and it only remains to develop them commercially."

Tesla's confidence in his ability to go through with his ideas to be a successful commercial conclusion shows all the force of a beautiful optimism—and we know that Tesla is a thoroughly practical "dreamer."

"When this is done, you will be able to go anywhere in the world—to the mountain top over looking your farm, to the arctic, or to the desert, and set up a little equipment that will give you heat to cook with and light to read by. This equipment will be carried in a satchel not as big as the ordinary suitcase. In years to come wire,

less lights will be as common on the farms as ordinary electric lights are nowadays in the cities."

Ah, the troubles of an explorer, made easy—"Put your power in your purse," and climb Mt. Everest, daily around the poles, sail over the Andes, loop Vesuvius. Run your auto the Tesla way. Train your tractor from a far-away power plant. Things as strange have happened.

EVER HAPPEN TO YOU?

John Blank, the busy business executive, picks up his phone and says to the switch-board operator: "Get me Smith of the firm of Punk, Bunk & Monk."

Mr. Smith is gotten on the line and is told to "wait a minute, please." It develops that Mr. Blank has ambled across the hall to a neighbor's office or is down at the far end of the factory. He has a mania for getting as far away from the phone as possible, after putting in a call.

Smith, at the other end of the line, rests wearily on his elbow and goes into a comatose state watching the window cleaner across the street. After about five minutes, Blank has been successfully paged and rushes in to the phone. "Sorry to have kept you waiting."

If Smith gets a dozen such calls in a day, he loses an hour.

This is a pest, and a growing one, that has risen in business within the past few years. It has been made possible by the era of private switchboard parties. In the days when a business man had to make his own telephone calls direct, he had to stay on the job until he got his party. Nobody's time was wasted.

Thoughtlessness? Yes. But it can easily be remedied. Have a little consideration for the other fellow's time. Don't put in a 'phone call for him unless you are ready to stay nearby for the 30 seconds or so required to get your connection. It will save a lot of time and make business run more smoothly.

The hard road leads to easy Street.

If the eyes and ears are kept out of other people's business, the nose will follow suit.

Numismatist says modern paper money originated in China in the year 806. Some of it looks like it.

It cost a New Jersey man \$2,453 damages for calling a woman a scold. This should put the brakes on a lot of loose talk.

New York man is said to have kept two wives in the same house. Wonder what No. 1 and No. 2 talked about when papa was at the office.

Five million dollars in German gold arrives in New York. How did it get past the English Channel, which apparently has one-way pockets?

Chicago taxicab driver who found \$7,000 in jewels and restored them to the owner, says he didn't get a reward. Can it be that the Rollo Books had it all wrong?

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

NEW YORK GIVES UP PRIMARY

The New York Legislature has repealed the direct primary law, and the State will return to the convention system, after an experiment that began when Charles E. Hughes was Governor more than a decade ago.

The direct primary has not been a success in the Empire State. It had made the cost of candidacy prohibitive save to men with wealth or with wealthy backers. It has complicated the problem of getting the right man into office. It has tended to break down party organization and weak party responsibility, despite the fact that government in this Country must be administered by responsible parties. It has produced such political anomalies as the election of William Sulzer to the Governorship, an event that had to be retracted by means of impeachment.

Of late years the defects of the primary system have been in part overcome in New York, as in Minnesota, by the holding of "unofficial" State conventions. These have permitted parties to function to some extent as they ought to function. Candidates have been named and platforms promulgated, subject to the verdict of the primaries. The delegates to the conventions, however, are to be elected in primaries held under the State's protection. The re-establishment of the old boss-controlled caucuses and the evils that flowed from them are thus to be guarded against, so far as any law can suffice. If the voters attend the primaries in numbers they can direct party action and dictate party nominations much more effectively than by the direct primary.

The Minnesota Legislature did not go so far as this. It has authorized pre-primary conventions, in order to restore majority rule in this State. It remains to be seen whether this plan will suffice or whether still further changes must be made.—Minneapolis Journal.

THE BISMARCK TRIBUNE

ABOUT THIS TIME O' YEAR

ADVENTURES OF THE TWINS

By Olive Barton Roberts

"What kind of monkeys are you?" asked Miss Hasty Hippo.
This was the idea that popped into Flippety-Flap's head when Granny Hippo got uppish. "You never miss the waterfall the well runs dry. Therefore, you never miss the circus until you just can't go."
He nudged Nancy, then he nudged Nick, but still Granny Hippo saw nothing. She had covered her head quickly in the yellow water of the muddy river, all but the end of her nose.
I think that I see another filibuster about half a mile up the river," said the fairyman paddled out beside her and when she saw them she stopped a great yawn and had started, and blinked her eyes rapidly. "For goodness sake!" she exclaimed. "What kind of monkeys are you? I thought that I'd seen every variety! There must be some things in the world I haven't seen after all."
"Not heard either," said Flippety-Flap taking mouth organ out of his shoe, and beginning to play a tune wouldn't bother them any more than a mosquito bite would bother you on a steamboat excursion."

"What's a steamboat excursion?" asked Nick.

"Lackaday!" exclaimed Flippety-Flap. "Look in the dictionary."

On, on. Let's go."

The Green Shoes and Flippety-Flap's large ones had them all down the river in a out two shales of a gopher pig's tail, where Miss Hasty Hippo was cooling her heels in the water and wondering what to do next.

Nancy and Nick and the fairyman paddled out beside her and when she saw them she stopped a great yawn and had started, and blinked her eyes rapidly.

"For goodness sake!" she exclaimed. "What kind of monkeys are you? I thought that I'd seen every variety! There must be some things in the world I haven't seen after all."

"Not heard either," said Flippety-Flap taking mouth organ out of his shoe, and beginning to play a tune.

(To Be Continued)

ment of the East. The fact is that Washington, April 22. At last a congressman has written an open letter to his constituents that everyone will want to read. The statesman who has achieved this distinction is Manual Herrick, who represents 12 large counties in the heart of Oklahoma. The letter has one fault, it is too long for publication in full, but the following extracts, verbatim as to spelling, punctuation, and capitalization, are quite enough—it not too much real on "piano published".

TO MY CONSTITUENTS Pursuant to my promise I shall write you a few lines concerning my trip to Washington. But you must let both papers see it and print it if The See fit.

Arrived Kansas City at 7:30 Left at 8:45 for Chicago weather fine until we crossed the Mississippi at Fort Madison Iowa.

Arrived Washington at 7:30 Friday morning secured a residence. In the forenoon went to visit the House and Senate in the afternoon.

Went shopping. This late noon bought an alarm clock made of brass. Some fine shirts, collars and cuffs.

We're to the House off the Building and find a room my mill is beginning to come in will soon knead a day to hell!

The people out west have an ingenious idea of the culture iron refinery.

The are more buckwooded and provincial than we are. The further you get away from the 19th Century and the fur-

Remarkable Remarks

I am sure Lenin and Trotzky are suffering from decayed teeth. The only thing standing in the way of Bolshevism in a country is good health.—Dr. E. H. Stancomb, London physician.

"Russian girls are dead morally."—Baroness Wrangel, wife of former anti-Bolshevik leader.

"You are too much given to laughing in America, because you do not realize the agony of the world."—The Rt. Rev. Nicholas Milivojevic, Serbian bishop.

"Large employers of labor and some of them justly so—have been made the football of muckrakers."—James J. Davis, secretary of labor.

"The railroads are facing a test. This year and next will tell the story."—Archibald Fries, vice president, Baldwin & Ohio Railroad.

"I did not come across an out-and-out advocate of prohibition in America."—Gilbert K. Chesterton, British writer.

"Women will be mobilized and sent to their places just like men in the next war."—Will Irwin, writer.

"If people knew what is in the poison they are buying for whisky, they wouldn't be live in the state who'd be thirsty enough to drink it."—Don V. Parker, Ohio state prohibition officer.

"Employers are very largely responsible for industrial unrest."—Charles E. Carpenter, industrial writer and editor.

HELPED HER LITTLE GIRL. Children need all their strength for growing. A lingering cold weakens them so that the system is open to attack by more serious sickness. Mrs. Amanda Flint, Route 4, New Philadelphia, O., writes: "Foley's Honey and Tar cured my little girl of the worst tickling cough. I had tried many things and found nothing to help until I got Foley's Honey and Tar." Gives immediate relief from distressing, racking, tearing coughs.

PROPOSE PACKING PLANT. Wahpeton, N. D., April 23.—A proposal to erect a packing plant at Wahpeton is being considered by the Wahpeton Commercial club, which has endorsed the project. Promoters of the enterprise ask the city to furnish site. The board of directors of the club is working out details.

IMMIGRATION BILL PASSES. Washington, D. C., April 23.—The immigration restriction bill passed the house this afternoon.

Speckboom, an African plant, whose leaves are the favorite food for elephants, has been transplanted to California.

The Glow of Health Comes to You
If you are careful to follow the advice of your older friends or relatives.
For over 50 years ago, Dr. Pierce, then a young practicing physician discovered that a prescription made up of Lady-slipper root, Viburnum, black and blue Cobosh, Unicorn root, Oregon Grape root, and made into a liquid extract, or tablets without alcohol, was wonderfully efficient as a tonic for those pains and ills so common among the women folks. This woman's tonic has sold as Dr. Pierce's Favorite Prescription for over fifty years and is just as popular and efficient now as at any time. Over a million bottles were sold last year and many of your friends and neighbors can testify as to

BISMARCK WILL NOT PLAY BALL WITH OUTLAWS

Local Club Secretary Writes To Minot Cancelling Baseball Games

The Bismarck baseball club will not play with Minot if the Minot team is reported hires several "outlaw" players.

Reports received here state that Minot has signed more than one of the Pacific coast league players who were "outlawed" because of alleged participation in bribery and gambling in the league.

Several of the players who will be with Bismarck are young men with a good chance of going up to the big leagues and they do not want to have a mark against their reputation as ball players that they played with men "outlawed" for fixing ball games. The management and fans also believe, in the interest of clean sport, that they should refuse to play with such a team.

Secretary Keller, of the Bismarck team, has written to the Minot management, cancelling previously arranged games.

PRISON TEAM IS ALL READY FOR WILTON CLASH

The prison baseball team is confident of turning the trick on the Wilton baseball team in their game here at the prison grounds Sunday afternoon at 3 o'clock. Art Bauer who is handling the prison team, announces that Chet Hopkins will be in the box for the prison team and Rulley will catch. The prison line-up will be the same as last Sunday. Wilton will bring their best team, and according to reports from Wilton, Jimmy Cunningham will pitch.

The prison team hopes to get a game with Mandan for a week from Sunday.

TOURNAMENT OF BALL CLUB WILL FEATURE JULY 4

The Bismarck Athletic Association today announced its intention of holding a big Fourth of July baseball tournament. Plans for the tournament are to be worked out immediately. There will be games on July 2, 3 and 4 with a double header on the Fourth. The Elks band may hold a street dance in connection with the tournament.

The special committee named after a conference of representatives of several organizations today announced that sentiment was against a general expensive Fourth of July celebration. Many favor holding a big after-harvest celebration.

ROOKIES TOP EARLY BATTING

Chicago, April 23.—With the season a little more than a week old Tierney, of Boston, tops the regulars of the National League in batting with an average of .520, according to averages released today and which include games of last Wednesday and players who have played in five or more games.

Dick of Chicago, is the runner-up with .500 and Brugge, of Philadelphia, third with .462.

ENGLISH TENNIS ENTRY IS VICTOR

Southampton, England, April 23.—(By the Associated Press) F. G. Lowe of England, defeated W. H. Bothford, youthful American tennis star, in the final of the Surrey hard courts tennis championship match here today.

SPORT BRIEFS:
Babe Ruth is far ahead of his home run record of last season. He cracked his fourth home Friday while last season he did not make his fourth until May 11. Kelly of the New York Nationals also has four circuit drives to his credit.

C. U. Webster & Sons

BY DEAN SNYDER.

To Babe Ruth the word IMPOSSIBLE is found only in vocabularies of one-cylinder minds.

Fifty-four home runs plus! That is the impossible record which he expects to break this season. But will he?

The odds figured on a basis of the normal human are against him. Yet Babe is a super-freak. He is a believer in Babe Ruth.

He has not yet reached the point where he knows the extent of his strength to consistently drive home runs.

This year he may find his limitations.

Prophecy Full.

The majority of ball players say Babe will not repeat. They said the same two years ago when he set his first record of 29.

When a player makes a record that none of the thousands of baseball's stars for the past 45 years has even touched, the color of the picture is different.

Last year Babe didn't start to hit until May.

He was lunging at the ball. It caused

Babe Ruth, Who is 1921 Uncertainty.

an overswing. After he eliminated the fault, he began his long swing upwards.

This spring in training he has shown the same tendency to lunge.

He is as overanxious as a child. He expects to see every ball he swings at disappear over the barriers.

Pitchers off whom he made his wonder record agree that if the Babe has weakness at bat they have not found out what it is.

He is apt to strike out on a fast one or a slow one, during one inning.

The next time he comes up he'll pulverize the same kind of pitching.

41st 1920 Record

Babe made 172 hits in 1920. Of these 99 were for extra bases. He walked 148 times. He scored 168 runs. He drove in 137 runs. He struck out 80 times.

His 54 home runs did not win as many games for the Yankees as one would think. The records show that only nine of his four-base drives actually turned the tide of victory to the Yanks.

Yet the psychology of slugging,

which his pace set for his teammates caused them to set a new team home-

regulars in hitting with a mark of .583 with Tobin, St. Louis, the runner-up with .560 in the American league.

Zwilling, of Kansas City, is ahead in American Association batting with an average of .526. Miller, St. Paul, is next with .500, while Ells, of Louisville, is third with .478. Zwilling is also leading in homers with two.

J. F. Goodspeed, driving a stock car at Daytona Beach, Fla., established a new world's one mile automobile record for cars of the stock chassis type. Goodspeed negotiated the distance in 34.26 seconds, or at a rate of 105.1 miles an hour. The record was formerly held by Ralph Mulford.

Christy Mathewson, former major league baseball pitcher, who has been ill at Saranac Lake, N. Y., since last July, soon will be able to go automobile-billing, his physician, Dr. E. N. Packard, announced. Mathewson now is able to be dressed for a short time each day and has no cough or temperature, the doctor said. He expects Mathewson to begin taking light exercise shortly.

From Selfridge.
J. J. Stasik of Selfridge is a faller in Bismarck today.

From Minot.
Norman Ness of Minot is in town for a few days on business.

From Shields.
C. F. Musher and Charles Duffy are Shields men in town for a few days.

From Dickinson.
J. G. Dickey of Dickinson is in town on business over the weekend.

Plaza Visitor.
R. F. McCloskey of Plaza was in Bismarck Friday attending to matters.

Shields Visitors.
Scott Jennings and Mrs. Jennings of Shields, N. D., are spending a few days in Bismarck.

Fargo Men Here.
Fargo men in town over the weekend are S. A. Tallison, H. G. Stark, Harry Herschleb and J. C. S. Nelson.

Devils Lake Caller.
O. K. Omile came in from Devils Lake yesterday to spend a short time in the capital on business.

From Boundary Line.
C. H. Marshall and son of Portal N. D. are in town for a few days.

From Stanton.
A. E. Soderholm of Stanton spent Friday in town on business.

From Linton.
Mr. and Mrs. O. H. Sauer of Linton are spending the weekend in Bismarck.

Motored Across Country.
M. E. Campion of Willow City and H. G. Fenimore of Antler motored in from the north end of the state yesterday on business in town.

Here for Band Concert.
Superintendent C. L. Codding and Mrs. Codding came down from Wilton yesterday. Mr. Codding taking a prominent

BIG CROWD AT AUDITORIUM TO HEAR ELKS PLAY

Bismarck Band Pleases Almost Capacity Audience with Splendid Program

The auditorium was nearly filled to capacity last night to hear the annual concert program of the Bismarck Elks band, and the large audience was much pleased with the attractive program played in a careful and spirited manner.

The smoothness and the enthusiasm with which the band played the various selections showed the work of many painstaking rehearsals under the direction of Spencer S. Boise, who demonstrated last night his unusual ability in handling the baton.

Responds to Encores.

The band was forced to respond for encores to most of the numbers, which they did effectively with popular compositions.

The violin solo, "Der Sohn der Haide," by Keler Bela, was played attractively by C. L. Codding, accompanied in an excellent manner by Mrs. Genevieve Menard-Hughes.

The complete program, exclusive of the solo, was as follows:

Washington Grays.....Grafula

Morning, Noon and Night.....Suppe

Uncle Tom's Cabin.....Lampe

Maytime.....Romberg

Imperial Guards.....Foss

Simplicity.....Lee

Persian Moonlight.....King

Atlantis (Suite in four parts).....Safranek

I. Nocture and Morning "wmn of Praise."

II. A Court Function.

III. "I Love Thee" (The Prince and Anna)

IV. The Destruction of Atlantis, Elks' March.....Lake

A total of some \$800 was added to the treasury of the band through the concert.

It is the highest goal human ever shot at.

If he fails to hit 29—his 1919 world record—he'll be considered a bust.

If he falls short of 54 there will be no sting of defeat attached to it other than his own keen disappointment in himself.

No other ball player of today entertains even wild dreams of being his competitor.

Babe has not yet learned the meaning of the word IMPOSSIBLE.

DODGE CAR IS STANDARD WITH AMERICAN ARMY

Only Two Passenger Cars Are Listed After Strong Tests

An official copy of the War Department catalog of Motor Vehicles giving the only vehicles which are now standard in the army, has just been received by M. B. Gilman Co., the local dealers in Dodge Brothers cars. This is a most interesting publication as it gives pictures and the government specifications of all cars, trucks and apparatus adopted by the government, as the only standard vehicles.

Dodge Brothers car and the Cadillac are the only passenger cars listed and in the light truck division, the Dodge Brothers business car and the 3½ ton G.M.C. in the fire-fighting division Dodge Brothers chassis is used with the installation of special body and fire-fighting equipment. In this last division the 3½ ton fire pumps are used on such high priced chassis Ahrens-Fox, American-LaFrance and Seagraves.

Accompanying the War Department catalog received here by the Highway Commission, was a letter from the Quartermaster General, reading in part:

"The chassis and vehicles listed herein are the only chassis and vehicles, exclusive of tanks, caterpillar vehicles and armored cars, now standard in the army. While certain other types and makes of vehicles are now in service, they are non-standard, and it is not contemplated to retain such makes and types after they are worn out."

The exclusive selection of Dodge Brothers cars in the medium type, after some 14,000 were delivered to the government for use in the Great War, shows the strongest endorsement that it is possible to give, and is an unqualified testimonial of the service Dodge Brothers car gives under the most severe conditions.

The complete Government catalog "Motor Vehicles and Trailers of the United States Army" may be seen at the salesroom of M. B. Gilman Co.

NEW RECORD MADE FOR DRIVEWAYS FROM BUICK PLANT

The Flint Journal declares in regard to the recent visit to the factory of 300 Buick representatives that the driveway of cars broke all records. It says,

"Over 300 Detroiters who came here this morning and drove back to Michigan's metropolis 78 Buick automobiles. Each car was driven by its owner and each owner bought his car from C. C. Starkweather, one of the four different Buick dealers in Detroit. The driveway was the largest in which owners took their cars home, in the history of the automobile business and the longest drive to a single dealer in the history of the Buick Motor Co."

"The party of Detroiters arrived in Flint shortly after 10 o'clock this morning on three special interurbans and soon the 78 cars were parked around the Hotel Durant with streamers on each bearing the words 'From Buick Motor Co. to Detroit.'

"Fair weather, one of the finest days this spring, brought the entire party outside the hotel and a Paramount camera man proceeded to 'shoot' a few for the news weekly produced by that company. As the Detroiters left for home, the camera

man, in a new Buick car, took pictures of the long line of cars as they left Flint. He was to take some more along the route."

BIG INCREASE IS PREDICTED IN AUTO TOURS

Oakland Representative Tells Why Auto is Valuable For Vacations

That the summer of 1921 will see an unprecedented amount of cross-country touring is a deduction made from the reports of motor clubs, tour bureaus, newspapers and similar sources of information on this growing American pastime. One conservative eastern automobile authority ventures the opinion that more money will be expended in gasoline, tires, oil, meals and hotel accommodations by the 1921 tourists than will be paid at the box offices of the major league ball parks during the regular season, which is a good indication of how popular cross country motoring has become.

While some might regard this expenditure as extravagance, to be charged to pleasure, a more sensible viewpoint is taken by C. W. Corwin, local Oakland representative.

"It must be remembered that practically all of these trips are vacation excursions," says Mr. Corwin, "and you certainly can't charge up vacations as extravagance. The man who hits the open road in a passenger car is availing himself of broadening recreation.

EXPLAINS WHAT MAKING RECORD MEANS IN CAR

Proves to Owner Just What Auto Will Do for Him, Says R. B. Loubek

The question is frequently raised," says R. B. Loubek, "as to the value of establishing records for a motor car," whether or not it pays to prove endurance and reliability, leadership on the speedway or hill climbs and in cross country runs against time.

"Both Hudson and Essex motor cars have gained an unquestioned amount of public faith and confidence through records the cars have established. Records alone, of course, have not been responsible for the sales volume but they have contributed in a real measure.

"People argue that an automobile is not worth because it can average better than 60 miles per hour on the speedway for over 50 hours. It is true no owner really expects his car to do that for him. He may not even care to know that an Essex crossed America, San Francisco to New York, 3,847 miles, in 4 days, 17 hours, 45 minutes, or that the type of car he owns holds every local worth while record for hill climbs, inter-state runs, etc.

"All such accomplishments are made for one purpose only, and that is to give the public or the prospective owner confidence in his car. Regardless of whether a man ever wants to exceed 20 miles per hour or not, he still takes pride in the fact that his

automobile can do these things, that the same chassis and same power plant beneath the hood of the cars that made these new marks against time are identical with the automobile that he drives.

"The effect of a new transcontinental record such as the Essex made last August cannot be overestimated. Those four days and fourteen hours was put more strain, more severe tests and trials than any average owner's car is subjected to in its lifetime.

"Records do pay. They prove consistency of performance, endurance and reliability in a way that is extremely valuable. They are to the automobile owner what Babe Ruth's latest total is to the baseball fan."

DANES SEEK TO PROTECT ESKIMOS FROM EXPLOITERS

Copenhagen, April 23.—The Danish government is trying to formulate a new system of government for its colony of Greenland but the Royal Commission appointed for that purpose has been unable thus far to agree whether the Eskimos of that far northern land shall be allowed to have free trade with all nations.

King Christian is to visit Greenland in June, the first time a Danish king has ever visited that colony, and the Commission hopes to reach an agreement.

"People argue that an automobile is not worth because it can average better than 60 miles per hour on the speedway for over 50 hours. It is true no owner really expects his car to do that for him. He may not even care to know that an Essex crossed America, San Francisco to New York, 3,847 miles, in 4 days, 17 hours, 45 minutes, or that the type of car he owns holds every local worth while record for hill climbs, inter-state runs, etc.

"All such accomplishments are made for one purpose only, and that is to give the public or the prospective owner confidence in his car. Regardless of whether a man ever wants to exceed 20 miles per hour or not, he still takes pride in the fact that his

ment in time to enable him to announce the new plan of government when he is greeted by the Eskimos.

A well-known Greenland explorer, who is not a member of the Commission told the correspondent that one section of the Commission was holding out for free trade between the Greenland Eskimos and the nationals of all countries. "This section," he added, "rightly says that the present system of the Danish state granting a monopoly to a single company, even if this company is managed by Danish state officials and for all practical purposes is a government department, is a direct violation of all democratic principles.

"Without any competition, no company, and particularly a company managed by state officials, could possibly be expected to obtain for products of the natives the same high prices as would be obtainable in the open market. Monopoly never bred efficiency.

"On the other hand, the other section of the Royal Commission asserts that the Eskimos is a child and must be treated like a child, that intoxicating liquor and other of the 'blessings' of civilization must be kept away from him, or he will go to ruck and ruin.

"Every Greenland settlement has been visited by illegal traders who have shamelessly taken advantage of

the confiding nature of the Eskimos. For a bottle of vile spirits, or a row of glass beads these 'traders' have robbed the natives of bearskins and other products of great value. So a grandmotherly trade restriction may not be right in principle but certainly in practice."

How She Got in
"Aunt Dolly" Spencer is to be the next mayor of Melford, Ohio.

How'd she get elected? She makes the best cherry pie in town.
So "Aunt Dolly" got in, you see, very largely on her crust.—Philadelphia Public Ledger.

Cut the Cost of Salesmen's Travel

THOUSANDS of salesmen are driving Overland cars to reduce the cost of travel and increase the results of travel.

In addition to a long list of great national organizations who supply their salesmen with Overland cars, there are hundreds and thousands of individual salesmen who own and operate their own Overland cars.

Overland is so light and yet so strong, so economical and yet so comfortable, that salesmen can cover more towns, see more customers, and use more time profitably, by driving it. Overland lasts a long time and costs very little.

Overland Prices Have Been Reduced
The Time Payment Plan's Very Easy

Even the Oldest Super-Sixes Today Speak Hudson's Worth

It is not just a matter of idle comment that Hudsons two, three and four years old, are constantly mistaken for cars of recent production.

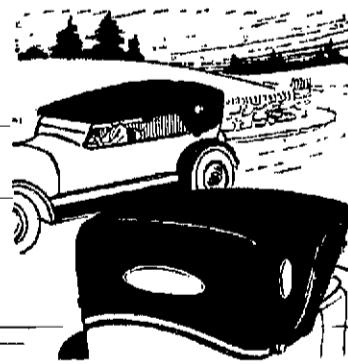

On the contrary, there is a very clear connection between the way these older Super-Sixes hold their new appearance and smoothness of performance, year after year, and the fact that Hudson for more than five years has held the leadership among fine cars.

And of all its more than 100,000 owners none give such convincing endorsement as those who drive the oldest Super-Sixes and find them still essentially modern in looks and still giving fine, reliable performance.

Ford
THE UNIVERSAL CAR

Every Ford Product a Helper

NOW'S the time to buy the Ford Car or Ford Truck or Fordson Tractor. Never were higher quality materials woven into these great utilities; never have prices been more reasonable, nor that dependable and excellent "After-Service" so complete.

Machine work is always more precise than hand work. The special tools and machines in our garage are the same as those being used and recommended because of their precision and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck or Fordson tractor from a minor adjustment to a complete overhaul. The promptness with which we do the work is a by-product of these specially designed machines; and we charge only the reasonable Ford prices for your work.

If your Ford car isn't running at top-notch efficiency, bring it here to Ford headquarters—that's to us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It's the most economical way.
